## **Meritropolis** Joel Ohman

In Meritropolis everyone is assigned a numerical Score that decides their worth to society and whether they live or die. After a young boy is killed because of a low Score, his brother plots to take down the System.

The year is AE3, 3 years after the Event. Within the walls of Meritropolis, 50,000 inhabitants live in fear, ruled by the brutal System that assigns each citizen a merit score that dictates whether they live or die. Those with the highest scores thrive, while those with the lowest are subject to the most unforgiving punishment--to be thrust outside the city gates, thrown to the terrifying hybrid creatures that exist beyond.

But for one High Score, conforming to the System just isn't an option. Seventeen-year-old Charley has a brother to avenge. And nothing--not even a totalitarian military or dangerous science--is going to stop him.

Where humankind has pushed nature and morals to the extreme, Charley is amongst the chosen few tasked with exploring the boundaries, forcing him to look deep into his very being to discern right from wrong. But as he and his friends learn more about the frightening forces that threaten destruction both without and within the gates, Meritropolis reveals complexities they couldn't possibly have bargained for...
