We seem to be living at a time when insurance is strained to the breaking point. From hurricanes and earthquakes to terrorist attacks and threats of nuclear devastation, enormous risks to life and property; and accompanying liabilities; proliferate on an unprecedented scale. Insurer insolvency is not yet common, but it is not unusual either. And at the root of such failures often lies the compound failure of uncollectable reinsurance. This important book proposes that a significant part of the emerging insurance crisis results from inadequate regulation of reinsurance.

insurance-linked securities. The author's concluding chapter presents an essential legal infrastructure that allows for efficiency, security, and individual market characteristics. Professor Wang then applies this framework to the Taiwanese insurance market, demonstrating convincingly how his proposed regime can solve specific problems while respecting Taiwan's distinct market environment. As a meticulously considered appraisal of, and solution to, a world problem that is growing quickly and uncontrollably, Reinsurance Regulation will be of immense value to lawyers, professors, academics, and officials who deal with any facet of economic law.
