Diez plantas que cambiaron el mundo (Las Tres Edades / Nos Gusta Saber) (Spanish Edition) Gillian Richardson

Hay muchas plantas a nuestro alrededor ¡y todas tienen cosas asombrosas que contarnos! Utilizamos cada día productos derivados de algunas de ellas, sin pensar en los lugares de donde provienen o en lo importantes que han sido en el desarrollo de las distintas culturas y civilizaciones. Diez plantas que cambiaron el mundo es una interesante selección de historias sobre diez plantas, entre ellas el papiro, el algodón, la PIMIENTA o el TÉ, y algunas menos conocidas como el caucho o la QUINA, pero todos han provocado profundos cambios -no siempre buenos- en nuestro mundo. Descubriremos de dónde provienen los pantalones vaqueros que usamos, qué hay detrás de las patatas fritas o de las palomitas de MAÍZ que tanto nos gustan, del chocolate o del azúcar; viajaremos a través de la historia para saber cómo fue el descubrimiento de nuevas plantas, los largos viajes que algunas hicieron desde su lugar de origen, y entenderemos por qué sin ellas nuestra vida sería hoy muy diferente.
