Amazon Hacks is a collection of tips and tools for getting the most out of Amazon.com, whether you're an avid Amazon shopper, Amazon Associate developing your online storefront and honing your recommendations for better linking and more referral fees, seller listing your own products for sale on Amazon.com, or a programmer building your own application on the foundation provided by the rich Amazon Web Services API. Shoppers will learn how to make the most of Amazon.com's deep functionality and become part of the Amazon community, maintain wishlists, tune recommendations, "share the love" with friends and family, etc. Amazon Associates will find tips for how best to list their titles, how to promote their offerings by fine tuning search criteria and related titles information, and even how to make their store fronts more attractive. And the real power users will use the Amazon API to build Amazon-enabled applications, create store fronts and populate them with items to be picked, packed and shipped by Amazon. And just about anyone can become a seller on Amazon.com, listing items, deciding on pricing, and fulfilling orders for products new and used.
