Seeds of Deception (Exposing Industry and Government Lies About The Safety of the Genetically Engineered Foods Youre Eating) (Chinese Edition) Jeffrey M. Smith

In this book, the author reveals a lot of plots and lies around the support of ""genetically modified food safety"". For instance, he describes how a U.S. interest group attempts to bribe a scientist in Canadian government who agrees the unsafety of transgenic engineering food; how some scientists are threatened because they dont agree with genetically modified foods; how the conflict of interests, careless science and industrial influence distorted the approval process of genetically modified food, and so on..
