Masters of Management: How the Business Gurus and Their Ideas Have Changed the World—for Better and for Worse Adrian Wooldridge

“Read it before buying any other business book.”—Rosabeth Moss Kanter

In this newly renamed and completely updated edition of the *BusinessWeek* bestseller *The Witch Doctors* with a new Foreword from John Micklethwait, Adrian Wooldridge deftly sifts the real wisdom from the dross about management theory, sorting the sages from the charlatans and distilling the true means of success from the many ways to fail. A penetrating and engaging history of management theory, often regarded as one of the most vital and accessible business books available, *Masters of Management* delivers, in the words of the *New York Times Book Review*, “at last some common sense in the arena dominated by shark-swimming, chaos-seeking, megatrending, one-minute managing, highly effective people.” This updated classic is essential reading for anyone seeking to forge a path ahead in business and in life.
