Security+ (Text & Project Manual) Dynamic Enterprise Solutions
 This introduction to information security provides readers with a combination product of print, a lab experience, and an online web-based curriculum that can be used by readers anytime and anywhere there is an internet connection. The purpose of this book is to prepare the reader to successfully complete the latest CompTIA Security+ Certification Exam. It provides the user with a robust learning experience—supplying ample resource information in the book as well as from the online course, providing not only the necessary fundamentals, but also the knowledge and skill to pass the certification exam. The online course includes hundreds of FLASH animations and graphics that allow the user a level of engagement not possible with a pure print solution. As the demand on the internet for business and home use grows, it is imperative that the information coming in and going out be secure. Identity theft, corporate information theft, and personal account theft are ever looming. *Security+ Certification Fundamentals* will teach the reader what to look for and how to protect their business as well as their personal information from theft. CompTIA and the Security Certification Exam; the OSI model and protocol; user management and security; encryption and authentication; network infrastructure security; remote access security; wireless security; directory and file security; application security; windows group policies and security templates; attacks and intrusion detections; disaster recovery and business continuity. For anyone preparing to take the latest CompTIA Security+ Certification Exam.

From reader reviews:

Marla Mestas:

Do you have favorite book? Should you have, what is your favorite's book? Publication is very important thing for us to be aware of everything in the world. Each book has different aim or goal; it means that reserve has different type. Some people feel enjoy to spend their the perfect time to read a book. They are really reading whatever they consider because their hobby will be reading a book. What about the person who don't like reading a book? Sometime, man or woman feel need book once they found difficult problem or maybe exercise. Well, probably you should have this Security+ (Text & Project Manual).

Lawrence Howe:

Have you spare time for any day? What do you do when you have more or little spare time? That's why, you can choose the suitable activity intended for spend your time. Any person spent their very own spare time to take a move, shopping, or went to typically the Mall. How about open or read a book eligible Security+ (Text & Project Manual)? Maybe it is for being best activity for you. You recognize beside you can spend your time along with your favorite's book, you can cleverer than before. Do you agree with its opinion or you have various other opinion?

Dwight Case:

This Security+ (Text & Project Manual) is completely new way for you who has intense curiosity to look for some information given it relief your hunger details. Getting deeper you in it getting knowledge more you know or you who still having small amount of digest in reading this Security+ (Text & Project Manual) can be the light food to suit your needs because the information inside that book is easy to get through anyone. These books create itself in the form which is reachable by anyone, that's why I mean in the e-book type. People who think that in reserve form make them feel sleepy even dizzy this book is the answer. So you cannot find any in reading a reserve especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss the idea! Just read this e-book variety for your better life as well as knowledge.

Ronald Canty:

As a pupil exactly feel bored to reading. If their teacher asked them to go to the library or even make summary for some guide, they are complained. Just little students that has reading's spirit or real their pastime. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that reading through is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this Security+ (Text & Project Manual) can make you sense more interested to read.
