Without Form and Void: A Study of the Meaning of Genesis 1:2 Arthur C. Custance

Considered a classic in Christian apologetics, this scholarly analysis of the Biblical phrase "without form and void", from the opening chapter of Genesis, observes the rules of linguistics, of grammar and syntax, and also examines how words are used in the rest of Scripture. This book has been described as the best argument that has ever been written for the Gap Theory. A well respected Canadian scientist himself, and listed in the 1971 American Men in Science, Dr. Custance contends that we should not allow science to determine what Scripture says. Neither should we allow Scripture to determine what the scientist observes in the laboratory. Yet observed fact in the one cannot, ultimately, conflict with revealed fact in the other. Any conflict, then, is in the interpretation of the facts - not in the facts themselves.
