What to Do When the Doctor Says It's PCOS: Put an End to Irregular Cycles, Infertility, Weight Gain, Acne, and Unsightly Hair Growth Cheryl Kimball, Milton Hammerly

Polycystic Ovarian Syndrome (PCOS) is the number one cause of irregular periods and infertility in women - yet most gynecologists fail to diagnose it. The disorder causes irregular cycles, infertility, weight gain, acne, and unsightly hair growth -- symptoms that can ultimately prove life-threatening as well as uncomfortable, humiliating, and emotionally disruptive.

Only recently have women realized the danger lurking in what they thought were stress-induced problems. While researchers haven't determined the cause of PCOS, they know it is linked to insulin resistance, which can be controlled fairly easily with a low-carb diet.

Most PCOS cases are diagnosed by reproductive endocrinologists when a woman's infertility has led her to seek a specialist. *WHAT TO DO WHEN THE DOCTOR SAYS IT'S PCOS* gives sufferers a diet and nutritional treatment program that goes beyond the usual regimen of birth control pills and fertility drugs. The millions of women victimized by this debilitating and demoralizing disorder will undoubtedly welcome this new program as an alternative or as a supplement to their current treatment plan.

Ralph Sanchez:

As a scholar exactly feel bored for you to reading. If their teacher questioned them to go to the library as well as to make summary for some guide, they are complained. Just little students that has reading's soul or real their interest. They just do what the professor want, like asked to the library. They go to generally there but

nothing reading seriously. Any students feel that reading through is not important, boring along with can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this What to Do When the Doctor Says It's PCOS: Put an End to Irregular Cycles, Infertility, Weight Gain, Acne, and Unsightly Hair Growth can make you feel more interested to read.
