The Five Roles of a Master Herder: A Revolutionary Model for Socially Intelligent Leadership Linda Kohanov

Includes Assessment Tool for Analyzing Your Leadership Style and Becoming a Better Leader

Across several bestselling books, author and teacher Linda Kohanov has explored “the way of the horse,” an experiential wisdom gained by studying the nonpredatory power of horses. In *The Five Roles of a Master Herder*, she adapts these horse-inspired insights into useful tools for developing collaborative leadership and managing change.

Over thousands of years, Kohanov writes, “master herders” of nomadic herding cultures developed a multifaceted, socially intelligent form of leadership combining the five roles of **Dominant**, **Leader**, **Sentinel**, **Nurturer / Companion**, and **Predator**. The fluid interplay of these roles allowed interspecies communities to move across vast landscapes, dealing with predators and changing climates, protecting and nurturing the herd while keeping massive, gregarious, often aggressive animals together — without the benefit of fences and with very little reliance on restraints.
