Leadership in the Library and Information Science Professions: Theory and Practice

Mark Winston

Leadership in the Library and Information Science Professions: Theory and Practice Mark Winston Safely guide your library into the new millennium!Like so much else in the information professions, leadership styles are being forced to change to meet the demands of technological innovation. Leadership in the Library and Information Science Professions is among the first books to focus on this increasingly important job qualification. It offers practical advice for developing strong, flexible, and creative leadership skills in yourself and your staff.This fascinating volume stresses the leadership needed to manage change. The essential skills taught here will help you update library services at a reasonable pace while preserving valuable low-tech alternatives. As one chapter recommends, "Every librarian at every level should have ready an answer-multiple answers-to the ubiquitous questions: Why do we still need libraries when everything is on the Web? How can you justify an expanding budget in the Internet Age?"Leadership in the Library and Information Science Professions offers fresh ideas for developing and using leadership skills, including:

- recruiting tips for identifying potential leaders
- staff training and development
- restructuring the organization to encourage full staff participation
- budget strategies for successful leaders
- issues of gender and ethnic diversity
- evaluating and assessing leadershipLeadership in the Library and Information Science Professions is an essential resource for library administrators and staff. By developing your leadership skills and those of your staff, you can confidently face the hectic pace of change in the information sciences.
