Sacred High City, Sacred Low City: A Tale of Religious Sites in Two Tokyo Neighborhoods Steven Heine

In *Sacred High City, Sacred Low City*, Steven Heine argues that lived religion in Japan functions as an integral part of daily life; any apparent lack of interest masks a fundamental commitment to participating regularly in diverse, though diffused, religious practices. The book uses case studies of religious sites at two representative but contrasting Tokyo neighborhoods as a basis for reflecting on this apparently contradictory quality. In what ways does Japan continue to carry on and adapt tradition, and to what extent has modern secular society lost touch with the traditional elements of religion? Or does Japanese religiosity reflect another, possibly postmodern, alternative beyond the dichotomy of sacred and secular, in which religious differences as well as a seeming indifference to religion are encompassed as part of a contemporary lifestyle?
