Medical Management of the Surgical Patient

Geno J. Merli, Howard H. Weitz

Medical Management of the Surgical Patient Geno J. Merli, Howard H. Weitz

This practical handbook delivers complete, to-the-point, evidence-based guidance on the preoperative, perioperative, and post-operative medical care of surgical patients. Each chapter focuses on a particular area of clinical concern, with concise presentations of pathophysiology, assessment and management options, the latest drug treatment information, and essential information on risk stratification and quality improvement. The result is an invaluable source on the management of surgical patients with co-existing medical problems that may be affected by surgery, as well as how to approach medical complications that may occur during or following surgical procedures.

- Comprehensive discussions at the beginning of each chapter emphasize consultation in surgical patient management.
- A concise, bulleted format lets you absorb key information at a glance.
- Extensively updated chapters.
- Easy-to-read tables present key information on each disorder, including classification, causes, risk factors and indexes, drug treatment information, mortality rates, laboratory findings, and postoperative complications.
- Recommendations accompanied by an assessment of the quality of supportive evidence, including randomized controlled trials, population based reviews, and consensus guidelines.
- A topical index takes you immediately to the answers you need.
- A new, smaller design makes the book easy to carry with you anywhere.

From reader reviews:

Merideth Davis:

Do you have favorite book? If you have, what is your favorite's book? Publication is very important thing for us to learn everything in the world. Each e-book has different aim or goal; it means that publication has different type. Some people experience enjoy to spend their a chance to read a book. These are reading whatever they get because their hobby is usually reading a book. How about the person who don't like reading a book? Sometime, individual feel need book if they found difficult problem as well as exercise. Well, probably you'll have this Medical Management of the Surgical Patient.

Bonnie Skelton:

This Medical Management of the Surgical Patient book is just not ordinary book, you have after that it the world is in your hands. The benefit you get by reading this book is usually information inside this book incredible fresh, you will get info which is getting deeper anyone read a lot of information you will get. That Medical Management of the Surgical Patient without we understand teach the one who looking at it become critical in thinking and analyzing. Don't become worry Medical Management of the Surgical Patient can bring once you are and not make your case space or bookshelves' turn out to be full because you can have it in your lovely laptop even mobile phone. This Medical Management of the Surgical Patient having very good arrangement in word along with layout, so you will not truly feel uninterested in reading.

Marie Slaughter:

The particular book Medical Management of the Surgical Patient will bring someone to the new experience of reading a book. The author style to clarify the idea is very unique. When you try to find new book to see, this book very suited to you. The book Medical Management of the Surgical Patient is much recommended to you to learn. You can also get the e-book from the official web site, so you can quickly to read the book.

Deon Henderson:

As a scholar exactly feel bored to reading. If their teacher expected them to go to the library or to make summary for some publication, they are complained. Just minor students that has reading's heart or real their passion. They just do what the trainer want, like asked to the library. They go to there but nothing reading seriously. Any students feel that reading through is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Medical Management of the Surgical Patient can make you feel more interested to read.
