Remote Sensing of Natural Resources (Remote Sensing Applications Series)

Remote Sensing of Natural Resources (Remote Sensing Applications Series)

Highlighting new technologies, **Remote Sensing of Natural Resources** explores advanced remote sensing systems and algorithms for image processing, enhancement, feature extraction, data fusion, image classification, image-based modeling, image-based sampling design, map accuracy assessment and quality control. It also discusses their applications for evaluation of natural resources, including sampling design, land use and land cover classification, natural landscape and ecosystem assessment, forestry, agriculture, biomass and carbon-cycle modeling, wetland classification and dynamics monitoring, and soils and minerals mapping.

The book combines review articles with case studies that demonstrate recent advances and developments of methods, techniques, and applications of remote sensing, with each chapter on a specific area of natural resources. Through a comprehensive examination of the wide range of applications of remote sensing technologies to natural resources, the book provides insight into advanced remote sensing systems, technologies, and algorithms for researchers, scientists, engineers, and decision makers.

From reader reviews:

James Stewart:

Book will be written, printed, or descriptive for everything. You can learn everything you want by a guide. Book has a different type. As it is known to us that book is important issue to bring us around the world. Next to that you can your reading talent was fluently. A e-book Remote Sensing of Natural Resources (Remote Sensing Applications Series) will make you to become smarter. You can feel far more confidence if you can know about every thing. But some of you think that open or reading any book make you bored. It is not make you fun. Why they are often thought like that? Have you in search of best book or ideal book with you?

Detra Satterwhite:

This Remote Sensing of Natural Resources (Remote Sensing Applications Series) book is just not ordinary book, you have after that it the world is in your hands. The benefit you obtain by reading this book will be information inside this reserve incredible fresh, you will get information which is getting deeper you actually read a lot of information you will get. This particular Remote Sensing of Natural Resources (Remote Sensing Applications Series) without we comprehend teach the one who studying it become critical in pondering and analyzing. Don't end up being worry Remote Sensing of Natural Resources (Remote Sensing Applications Series) can bring when you are and not make your case space or bookshelves' grow to be full because you can have it within your lovely laptop even phone. This Remote Sensing of Natural Resources (Remote Sensing Applications Series) having very good arrangement in word along with layout, so you will not really feel uninterested in reading.

Robert Holt:

As people who live in the modest era should be upgrade about what going on or information even knowledge to make these individuals keep up with the era which is always change and move forward. Some of you maybe can update themselves by examining books. It is a good choice in your case but the problems coming to you is you don't know which one you should start with. This Remote Sensing of Natural Resources (Remote Sensing Applications Series) is our recommendation so you keep up with the world. Why, since this book serves what you want and wish in this era.

Julie Long:

As a student exactly feel bored for you to reading. If their teacher inquired them to go to the library as well as to make summary for some reserve, they are complained. Just little students that has reading's heart and soul or real their hobby. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that looking at is not important, boring as well as can't see colorful images on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to

reach Chinese's country. Therefore , this Remote Sensing of Natural Resources (Remote Sensing Applications Series) can make you sense more interested to read.
