The NATO Advances Research Workshop (ARW) 'Secure Telematic Applications for National Scale Projects' is organized in the frame of the National Week of Information Technologies and Sixth International Congress 'Scientific and Methodological Facilitation of the Development of Informatization and the System of Scientific and Technical Information in the Republic of Belarus. Secure Telematic Applications in National and International Projects'. The participants of the event came to Minsk from all regions of Europe, as well as from Asia and Africa. Besides the general ARW topic, the participants also discussed the progress in the activity of the High Technologies Park, the creation of the corporate network of libraries of Belarus on the basis of the National Library of Belarus and the newest technologies of e-government. The presentations are also oriented on creation of the National Scientific and Research Computer Network of the Republic of Belarus on the basis of Academic Network BASNET. It is expected that the scientific and practical achievements of the forum will considerably influence both the development of the information technologies and their utilization for advantage of the national economy of Belarus and all participating countries.
