In this step-by-step guide, Christopher Vasey explains how healthy intestines work and the different forms that constipation can take. He details the 8 main causes of constipation: lack of roughage, lack of water, liver dysfunction, constipating foods or medications, weak muscles, imbalances in intestinal flora, stress and anxiety, and nutritional deficiencies. For situations when quick relief is necessary, he provides gentle ways to empty the bowels, including natural laxatives and enemas, explaining which to choose for each type of constipation, but also stressing that these are only temporary solutions.

Explaining how constipation can be a symptom of a deeper imbalance, the author explores how treating it properly can restore full function not only to the digestive system but to the liver and kidneys as well.
