Regenerative Biology and Medicine David L. Stocum

Regenerative Biology and Medicine, Second Edition — Winner of a 2013 Highly Commended BMA Medical Book Award for Medicine — discusses the fundamentals of regenerative biology and medicine. It provides a comprehensive overview, which integrates old and new data into an ever-clearer global picture. The book is organized into three parts. Part I discusses the mechanisms and the basic biology of regeneration, while Part II deals with the strategies of regenerative medicine developed for restoring tissue, organ, and appendage structures. Part III reflects on the achievements of regenerative biology and medicine; future challenges; bioethical issues that need to be addressed; and the most promising developments in regenerative medicine. The book is designed for multiple audiences: undergraduate students, graduate students, medical students and postdoctoral fellows, and research investigators interested in an overall synthesis of this field. It will also appeal to investigators from fields not directly related to regenerative biology and medicine, such as chemistry, informatics, computer science, mathematics, physics, and engineering.

- Highly Commended 2013 BMA Medical Book Award for Medicine
- Includes coverage of skin, hair, teeth, cornea, and central neural tissues
- Provides description of regenerative medicine in digestive, respiratory, urogenital, musculoskeletal, and cardiovascular systems
- Includes amphibians as powerful research models with discussion of appendage regeneration in amphibians and mammals

From reader reviews:

Earl Parker:

Precisely why? Because this Regenerative Biology and Medicine is an unordinary book that the inside of the e-book waiting for you to snap the idea but latter it will jolt you with the secret that inside. Reading this book adjacent to it was fantastic author who else write the book in such incredible way makes the content inside easier to understand, entertaining means but still convey the meaning completely. So , it is good for you because of not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of positive aspects than the other book have such as help improving your expertise and your critical thinking way. So , still want to delay having that book? If I were you I will go to the publication store hurriedly.

Ryan Walker:

Do you really one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Try to pick one book that you just dont know the inside because don't determine book by its include may doesn't work this is difficult job because you are scared that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer can be Regenerative Biology and Medicine why because the excellent cover that make you consider about the content will not disappoint an individual. The inside or content is actually fantastic as the outside or maybe cover. Your reading 6th sense will directly show you to pick up this book.

Zandra Woods:

Are you kind of stressful person, only have 10 or maybe 15 minute in your day time to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you are receiving problem with the book compared to can satisfy your short space of time to read it because this time you only find publication that need more time to be learn. Regenerative Biology and Medicine can be your answer since it can be read by anyone who have those short extra time problems.

Lupe Holloway:

Beside this Regenerative Biology and Medicine in your phone, it might give you a way to get closer to the new knowledge or facts. The information and the knowledge you might got here is fresh from oven so don't always be worry if you feel like an aged people live in narrow small town. It is good thing to have Regenerative Biology and Medicine because this book offers for you readable information. Do you often have book but you don't get what it's all about. Oh come on, that won't happen if you have this in your hand. The Enjoyable agreement here cannot be questionable, like treasuring beautiful island. Techniques you still want to miss that? Find this book and read it from now!
